Parents recommend it!

"We were at our wits' end because before Hooked on Phonics Jarrett was failing. Now he's reading at grade level, and he's even won an award in outstanding achievement for reading."

Results not typical. Tammy Hoehn, Mother of Jarrett, age 8

Teachers endorse it!

"I thought I had seen it all in education after 27 years, but after only six weeks...it's as if a light bulb went on in the child's head. They're reading. It is wonderful!"

Linda Check, Former Tennessee Teacher of the Year, Grades 1-3

Kids love it!

"Reading a Hooked on Phonics book made me feel happy inside, and I wanted to tell my mom."

Briana, age 7

Austin becomes a confident reader  
with Hooked on Phonics!

I knew he was smart, but somehow the light wasn't coming on for Austin. I could feel him starting to slip behind.

Worse, I could feel his pain in not understanding why

he couldn't read. Then someone reminded me about  Hooked on Phonics. It was fun and

easy. The letters led to sounds. The sounds led to sentences. And the sentences led to success.

It took just 15 minutes a day,  and suddenly the light came on for Austin. He was reading. And to this day, I'm not sure which of us is more proud."

# chool Success

erence it can make...on your  
es, and self-esteem!

Hooked on School Success is designed to...

- Teach your child to understand and remember what he reads
- Take the hassle out of nightly homework for your child (and you!)
- Make taking quizzes and tests easier
- Give your child more confidence and self-esteem to tackle assignments

"Hooked on School Success 'demystifies' reading comprehension, homework, and test taking to help kids cross the bridge from learning to read to reading to learn."

Ted Mitchell Ph.D.  
Former dean of the UCLA Graduate School of Education

Award-winning authors Jahna Beecham and Malcolm Hillgartner helped to make an incredibly powerful educational program pure fun from start to finish.

Reading + Homework + Test Taking = School Success

Take your child to the next level of learning.

Level 1 uses fiction to build a foundation in reading comprehension.

Level 2 focuses on nonfiction to help your child organize his thoughts and learn vital study strategies like skimming, separating main idea and details, and building a mind map.

Level 3 tackles homework as kids learn to take notes, interpret maps and charts, and understand what they're being asked in homework or on tests.

Level 4 puts it all together as kids learn to apply their skills to schoolwork across many subjects...not just English classes!

# NEW Hooked on Sc

Try it for 60 days and see the difference in your child's homework, test scores, and reading skills!

## As kids enter 3rd through 6th grades, they are at a crossroads.

Suddenly, they are expected to read to learn and then apply what they're reading to get through a mountain of homework. Their workload doubles. Frustration mounts. They are standing at a crossroads. One road leads to a long struggle. The other is the road to success.

## End the nightly battles to get homework done.

As parents, we know that between preparing dinner and trying to carve out a little quality family time—there's homework! An assignment that should have taken 20 minutes turns into an hour...or longer. It's suddenly 8:30, dinner is overcooked and everybody's stressed. This program is designed to teach kids key strategies and tips for completing assignments efficiently so that homework time is reduced and both kids and parents have more free time.

Tilly

## Helps kids learn independently, as you track their progress!

Your child can use *Hooked on School Success* independently. But don't worry. You can easily track his success rate with our skills assessment. With the results of this assessment, the program adapts its Reading Challenges at the end of each level to match your child's individual abilities. This allows him to read appropriately leveled articles and stories. The result? Your child progresses at his own pace and builds confidence as he achieves individual success.

**5 STEPS TO  
SCHOOL SUCCESS...**

# Each level in HOOKED ON SCHOOL SUCCESS follows our "5 Steps to School Success"

Each level, each step teaches a new skill kids can adapt to many subjects in school.

We worked with leading educators to develop these steps. They form the framework for the entire *Hooked on School Success* program.

## 1. Get Ready to Read

Your child learns that great readers get their minds working before they start to read. They think about what they already know. They ask themselves questions about what they are going to read.

## 2. Read Actively

Your child learns that great readers keep track of what they're learning while they read. They take notes and ask questions. This helps them remember what they're reading every step of the way.

## 3. Use Power Tools

Your child learns that great readers use all of the reading strategies they have. They look at headings, charts, and maps. They figure out a word they don't know from the words around it.

## 4. Find the Big Idea

Every story has the same basic structure—a main idea and some details. Your child learns that great readers know how to zero in on the main ideas and leave the unimportant stuff out.

## 5. Organize Your Thoughts

Your child learns that great readers put their thoughts in order by using pictures and notes, or listing main ideas and details. This can help make studying for a test or writing reports a snap.

*These "5 Steps to School Success" are repeated in each level of the program to help your child master them!*
